1872

Cash \$100-

In his first letter as
 Dr. Nelson he does not
 seem that this had done
 much as the latter

has also he says he is going
 to Intero, altho ship did
 nothing & did so

for Otterquell

This handwriting on bottles
side was the first they saw
one in Edgerton 1874,

& for 3 quarters & his son

the fourth in this country

He not later his own
claim of 600, ^{also by the} more or less, & why -
became Smith had rights his
indemnity when to go -

He had taken his contract
as to time of 42 hrs.

He had threatened him with
damage to his voyage by taking

out of him. He then left
by saying he would see before
the voyage ended.

He said it as by saying
to himself 6000 full of life -

Copy of H. W. Vines Contract

Three Generations have and are
and are —

have and are before by
a ship master,

I have and tell you of the
master being the attorney part,
have before had a case in
court by my father or master,

belong was the ship master of
the H. W. Vines and it was left
to a referee John Lee master,
if he decided in Orons favor —

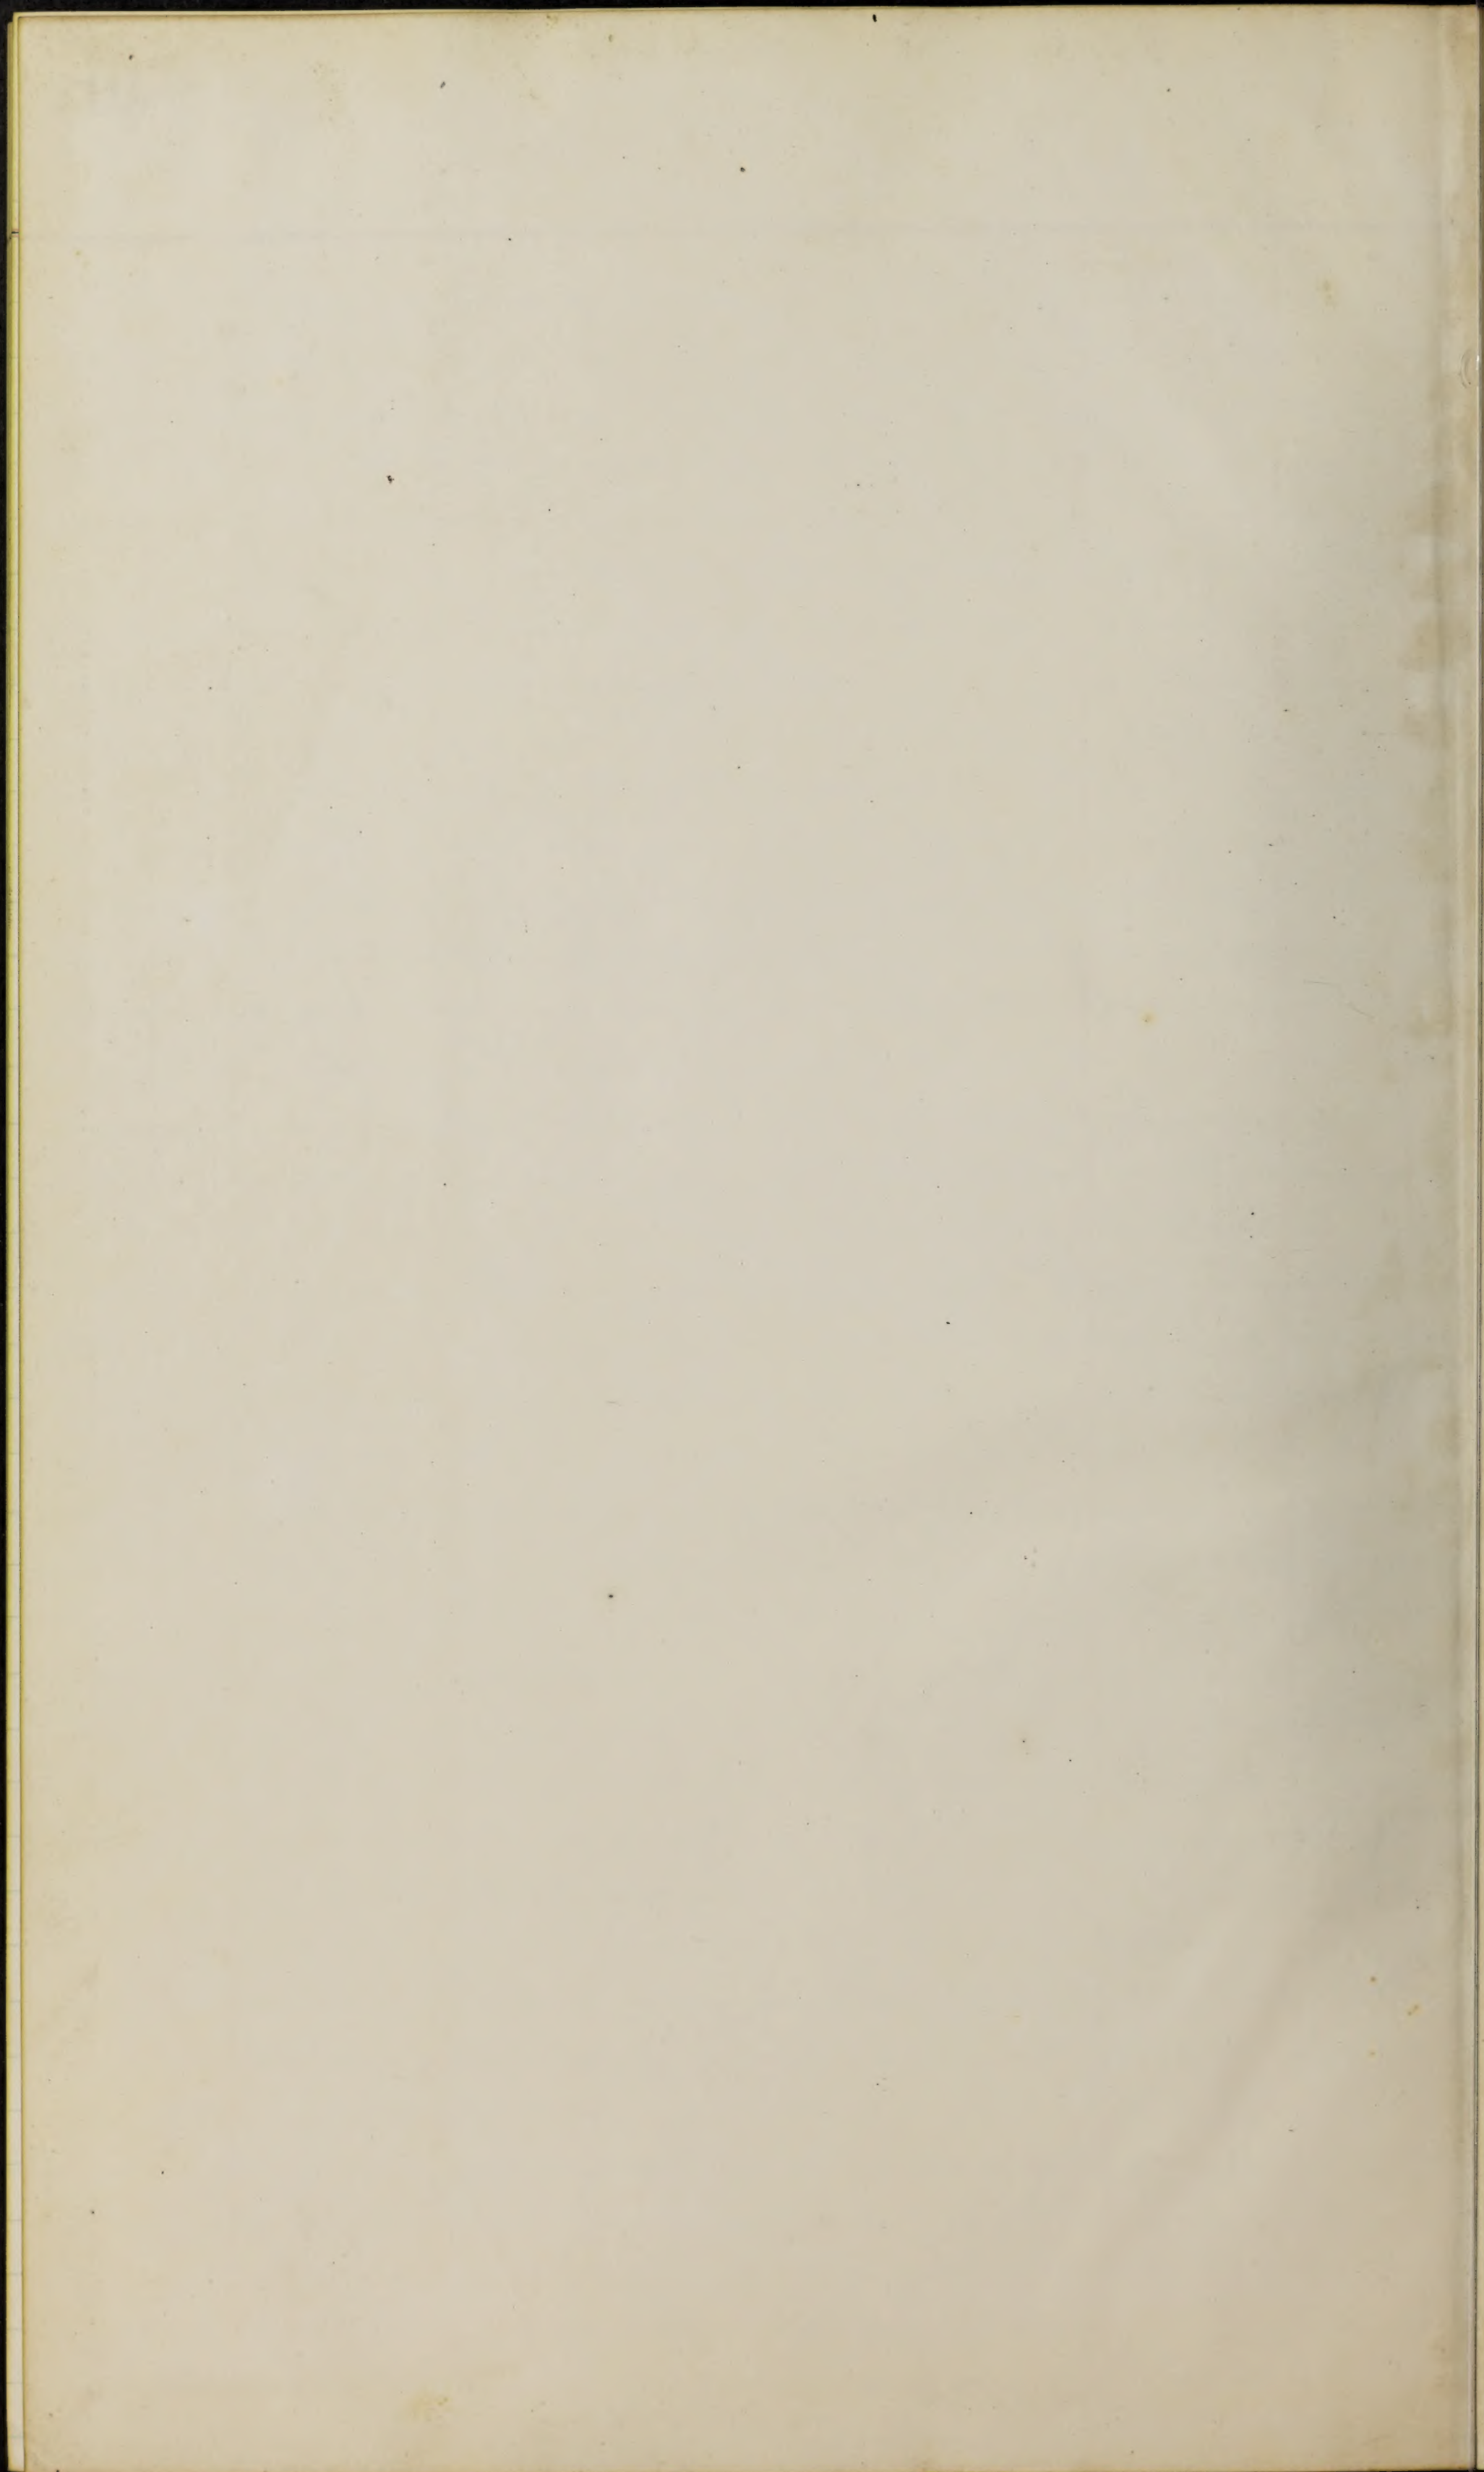

The sum to a Referee Smith
with \$20,000 in the name of the firm
which he did was to violate the
contract that Orons put in there
by looking after Whaling grounds —

The next thing was to insure
him, because he was not sure
for a living that was of it —

The next thing was to look
to violate but appears for 42 years
although there was 20th and before

The study in drawing is from 40 to
42 mos.

The next thing was to make
Oliver's son's.
